Civilian Defense Office

Executive order 8757 established the Office of Civilian Defense in the Emergency Management Office of the Executive Office of the President, May 20, 1941. The Office was created to serve as a center for the coordination of Federal civilian defense activities which involve relationships between Federal Government and State and local governments, Territories, insular possessions, and the District of Columbia. At the head of the Civilian Defense Office is a director appointed by the President.

Defense Aid Reports Division

The Defense Aid Reports Division was established within the Office for Emergency Management of the Executive Office of the President by Executive order 8751, May 2, 1941, and an executive officer designated at the head thereof by a military order dated May 6. The new Division serves as a channel for the processing of requests for aid under the lend-lease act, maintains a system of reports and accounts approved by the Budget Bureau, and serves generally as a clearing house of information for agencies participating in the lend-lease program.

Defense Housing Coordination Division

The Division of Defense Housing Coordination was established within the Office for Emergency Management by Executive order 8632, dated January 11, 1941. This Office took over the activities and personnel of the office of the Defense Housing Coordinator set up by the Advisory Commission to the Council of National Defense. By authority of the Executive order it cooperates with all agencies of the Government having responsibilities for defense activities, and utilizes the services and operating facilities of Federal housing agencies.

COMMERCE DEPARTMENT

NOTE.—In its efforts to foster, promote, and develop the foreign and domestic commerce, the manufacturing, shipping, and the transportation facilities of the United States, the Department of Commerce issues many regular and special publications. The free distribution of publications of the Department is confined almost entirely to libraries, educational institutions, the press, and commercial organizations. Others may procure them, at prices stated below, from the Superintendent of Documents, Government Printing Office, Washington, D. C., to whom remittances should be sent direct, as his office is not a part of the Department of Commerce.

LAWS

NOTE.—The Federal laws are first published separately and in this form are known as "slip laws." Later, these laws are compiled, edited, indexed, and published in the volumes of the Statutes at large.

Beginning with the 77th Congress, the laws no longer are numbered in four series, public acts, private acts, public joint resolutions, and private joint resolutions, but are numbered in two series, namely, public laws and private laws.

The "slip law" continues to bear the chapter number and the session of Congress during which the law was enacted, but this information does not appear in the entries listed below.

Private [joint] resolutions. See, above, note under center head Laws.

Private law 97-127, 77th Congress.

Progress maps

NOTE.—These maps show the status of improvement of the Federal-aid system in each State, regardless of whether the construction has been done with the aid of the Federal Government, by the States, by the counties, or by the townships. A system of symbols indicates the type of improvement of all the roads and whether the work was done with or without the assistance of the Federal Government. Sheets are of uniform size, some States requiring 2 or more, and are so issued that they may be punched and put in a loose-leaf atlas. The maps are called progress maps, and the series will be issued periodically to show any change in improvement of the highways. As the transportation maps for each State become available, publication of progress maps for that State is discontinued.

Topographic quadrangle maps

NOTE.—The Geological Survey makes the contoured—i. e., the three-dimensional topographic maps of the country that are designed eventually to cover the whole United States, also Alaska, Hawaii, and Puerto Rico. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. The scales most commonly used are 1:31,680, 1:62,500, and 1:125,000, corresponding approximately to $\frac{1}{2}$ mile, 1 mile, and 2 miles to 1 inch. The area covered varies with the latitude, but the average area of a quadrangle is 58, 230, or 920 square miles, respectively, for these three scales. Topographic maps are printed on uniform-sized paper, about 20 by 16 $\frac{1}{2}$ inches and the maps of the quadrangle areas represented thereon are about 17 $\frac{1}{2}$ inches long and 12 to 15 inches wide, according to latitude. For some areas of particular importance special large-scale maps are published. A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About half of the continental area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Geological Survey at 10c. each. Except as otherwise indicated, a discount of 40 percent is allowed on any order which amounts to \$5.00 at the retail price. The discount is allowed on an order for either maps or folios alone or for maps and folios together. In ordering, give the name of the map and the State in which the area lies.

- NOTE.—The Reclamation era is a magazine for engineers, construction men, economists, and farmers on Federal reclamation projects. Its aim is to assist the settlers in the proper use of water, to help them in overcoming their agricultural difficulties, to instruct them in diversifying and marketing their crops, to inspire the employees of the Bureau and chronicle engineering problems and achievements, and to promote a wholehearted spirit of cooperation, so that reclamation shall attain the greatest heights of success. "Notes for contractors" enable them to keep posted on the Bureau's needs.
- The subscription price of the Reclamation era is \$1.00 a year to other than water users; foreign subscription, \$1.36 payable in advance. Subscriptions should be sent to the Commissioner, Bureau of Reclamation, Washington, D. C., accompanied by remittance in the form of postal money order or New York draft, which should be made payable to the Treasurer of the United States and forwarded to the Bureau of Reclamation.

FEDERAL REGISTER DIVISION

NOTE.—The archivist of the United States acting through this division established by him under the provisions of the Federal register act, Public no. 220, 74th Congress (49 Stat. 500-503) is charged with the custody and, together with the Public Printer, with the prompt and uniform printing and distribution of the documents required or authorized to be published under sec. 5 of this act. Such documents required or authorized to be so published are printed and distributed forthwith by the Government Printing Office in a serial publication designated the Federal register. The daily issues of the Federal register are, in effect, daily supplements to the Code of Federal regulations, and regulatory documents published therein follow the Code arrangement.

Federal register. Federal register, v. 6, no. 127-148; July 1-31, 1941. [1941.] p. 3163-3822, 4° [Daily, except Sunday, Monday, and day following a legal holiday.] L. C. card 36-26246 AE 2.7: 6/127-148

NOTE.—The Federal register contains (1) all Presidential Proclamations; and all Executive orders, except such as have no general applicability or legal effect or are effective only against Federal agencies or persons in their capacity as officers, agents, or employees thereof; also contains all Executive orders establishing, amending, or revoking civil service rules, and all Executive orders containing a direction for publication thereof; (2) such documents or classes of documents as the President shall determine from time to time have general applicability and legal effect; and (3) such documents or classes of documents as may be required so to be published by act of the Congress. From Mar. 14, 1936, through July 31, 1941, one hundred and thirty-two (132) agencies have submitted documents for publication in the Federal register. Suitable indexes are issued monthly, quarterly, and annually. The bound volumes of the Federal register were discontinued on June 3, 1938, and have been replaced by the annual supplements to the Code of Federal regulations.

The Federal register is sold by the Superintendent of Documents on the following terms: Single copy, 10c.; \$1.25 per month; \$12.50 per year. Subscriptions are payable in advance. Send remittances to the Superintendent of Documents, Washington, D. C.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local maps which, with a few exceptions, are drawn to the scale of 1:62,500 or 1:63,360 (1 mile to the inch). Maps of more than 1,575 counties in the United States have been prepared by the Post Office Department and blue-line prints, made from negatives on file, are sold for 50 cents per copy. Each county map shows in addition to the roads traveled by rural carriers, all post offices within the county at the time the negative was made and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local maps. Blue print copies of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for January 1941, page 85

SMITHSONIAN INSTITUTION

NOTE.—In a recent price list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are especially interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers*, arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No sets of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to Knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad; and are supplied to other institutions,

How to order publications—See General Information

and to individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' A discount of 20 percent is allowed to bookdealers. The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no general mailing-list of individuals. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

The only Smithsonian publications that are regularly issued as public documents are the annual report volumes. The publications in the other series have free transmission by mail, and, therefore, are included in the Monthly catalog.

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise an annual report and three scientific series, viz. Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology (except botany), geology, and anthropology. Contributions from national herbarium are wholly botanical. No sets of any of these series can now be furnished.

The Proceedings are now issued in pamphlet form only. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title page and index will be published for each volume so that the volume may be bound if desired.

STATE DEPARTMENT

NOTE.—All publications of the Department (except laws and treaties) have, since Oct. 1, 1929, been numbered consecutively in the order in which they were sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled *Foreign relations of the United States*. Laws are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Treaties are also published in the compilation *Treaties and other international acts of the United States of America*, which contains literal copies of the documents, followed by notes of a textual and procedural character. The Department of State Bulletin, published weekly and indexed semiannually as of the dates of the last issues in June and December, contains the texts of the daily mimeographed press releases, information regarding treaties and other material on the Department's work. The Bulletin contains each quarter a complete list of the Department's publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

For information concerning Executive orders and Proclamations of the President, formerly promulgated by the State Department, but beginning with Mar. 12, 1936, distributed by the Federal Register Division, see National Archives, Federal Register Division, *Federal register*.

TAX APPEALS BOARD

NOTE.—The Board of Tax Appeals reports are first promulgated in leaflet form, designated as "advance sheets." At the end of each month, these advance sheets are consolidated into pamphlet form and published as "advance parts." A list of memorandum opinions is included in each pamphlet. Later, the advance parts are consolidated and issued in bound volumes. Both the advance sheets and the advance parts are sold on subscription by the Superintendent of Documents, Government Printing Office, Washington, D. C. The subscription price of the "advance sheets" is \$2.25 per volume, foreign subscription, \$2.85; single copies usually 5c. The "advance parts," or monthly consolidations, are sold as follows: 20c. single copy, \$1.25 per volume, foreign subscription, \$1.85. The price of the bound volume will be given upon application.

MISSISSIPPI RIVER COMMISSION

NOTE.—The publications of the Mississippi River Commission consist of annual reports, annual pamphlets showing daily river stages, annual pamphlets showing daily river discharge, and annual pamphlets showing results of river discharge measurements; also publications of the Waterways Experiment Station operating under the direction of the Mississippi River Commission. The Mississippi River Commission publishes maps and charts of the Mississippi River; navigation maps of the Mississippi River from Cairo, Ill., to the Gulf of Mexico, La.; and wall maps, in colors, of the lower Mississippi River Valley from the head of the St. Francis Basin near Cape Girardeau, Mo., to the Gulf of Mexico, La., scale 1:500 000 and 1:250 000. Topographic quadrangle maps in colors, scale 1:62,500 of the alluvial valley of the lower Mississippi River are also published by the Mississippi River Commission; the topographic quadrangle maps comprise over 200 sheets and cover portions of the States of Missouri, Illinois, Kentucky, Arkansas, Tennessee, Mississippi and Louisiana adjacent to the Mississippi River and tributaries, with an area of almost 51,000 square miles mapped. All are sale publications obtainable only from the Mississippi River Commission, except the annual reports which are issued by the Superintendent of Documents. No discount is allowed. Requests for information as to lists of publications and maps and method of making remittance should be addressed to: The Mississippi River Commission, P. O. Box 80, Vicksburg, Miss.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary of St. Regis, of Lake of the Woods, of Rainy Lake, of Lake Champlain, and of the natural navigable waters of the New York State canals are prepared and sold by the U. S. Lake Survey Office, 605 Federal Building, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices; 710 Army Building, New York, N. Y.; 322 Federal Building, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalog (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, may be purchased for 75 cents from the U. S. Lake Survey Office and from the Superintendent of Documents. The bulletin is revised annually and

FINANCE DEPARTMENT

Finance circulars. ‡

NOTE.—Finance circulars contain instructions and information of a relatively permanent character pertaining to the performance of the technical duties of finance and disbursing officers and of property auditors. Though bearing dates they are grouped according to subject matter. Each group of circulars is designated by a letter, and the circulars in each group are numbered consecutively. Numbered changes are issued separately for each circular as required. Issued with a T-hole punch for binding.

LAWS

NOTE.—The Federal laws are first published separately and in this form are known as "slip laws." Later, these laws are compiled, edited, indexed, and published in the volumes of the Statutes at large.

Beginning with the 77th Congress, the laws no longer are numbered in four series, public acts, private acts, public joint resolutions, and private joint resolutions, but are numbered in two series, namely, public laws and private laws.

The "slip law" continues to bear the chapter number and the session of Congress during which the law was enacted, but this information does not appear in the entries listed below.

Private [joint] resolutions. See, above, note under center head Laws.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of Monographs, Professional papers, Bulletins, Water-supply papers, folios of the Geologic atlas of the United States, topographic maps (some of which bear descriptive texts), base and contour and other maps of the United States and of the States. Practically all of them are sale publications. The maps and folios are sold by the Geological Survey at Washington, D. C. Orders for other publications that are for sale should be sent to the Superintendent of Documents, Washington, D. C.

Maps

NOTE.—The maps listed below are sold by the Geological Survey. Remittances for these maps should be made by money order payable to the Director of the Geological Survey, Washington, D. C. Except as otherwise indicated, a discount of 40 percent is allowed on an order for maps, or for maps and geologic folios, that amounts to \$5.00 at the retail price. In ordering give the name of each map and the State in which the area lies.

Tolt River. Plan and profile of North Fork Tolt River, South Fork Tolt River, Wash., Tokul Creek and dam sites, topography by Hiram Del'Puy, jr., E. L. Werner, and Arthur Johnson, surveyed in 1937 and 1938; [maps]. [Washington, D. C., Geological Survey] 1941. 3 sheets (1–3) each 18 × 25 in. [Subject to adjustment.] † 30c per set of 3 maps. Topographic quadrangle maps

NOTE.—The Geological Survey makes the contoured—i. e., the three-dimensional topographic maps of the country that are designed eventually to cover the whole United States, also Alaska, Hawaii, and Puerto Rico. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. The scales most commonly used are 1:31,680, 1:62,500, and 1:125,000, corresponding approximately to $\frac{1}{2}$ mile, 1 mile, and 2 miles to 1 inch. The area covered varies with the latitude, but the average area of a quadrangle is 58, 230, or 920 square miles, respectively, for these three scales. Topographic maps are printed on uniform-sized paper, about 20 by 16½ inches and the maps of the quadrangle areas represented thereon are about 17½ inches long and 12 to 15 inches wide, according to latitude. For some areas of particular importance special large-scale maps are published. A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About half of the continental area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Geological Survey at 10c. each. Except as otherwise indicated, a discount of 40 percent is allowed on any order which amounts to \$5.00 at the retail price. The discount is allowed on an order for either maps or folios alone or for maps and folios together. In ordering, give the name of the map and the State in which the area lies.

NOTE.—The *Reclamation era* is a magazine for engineers, construction men, economists, and farmers on Federal reclamation projects. Its aim is to assist the settlers in the proper use of water, to help them in overcoming their agricultural difficulties, to instruct them in diversifying and marketing their crops, to inspire the employees of the Bureau and chronicle engineering problems and achievements, and to promote a wholehearted spirit of cooperation, so that reclamation shall attain the greatest heights of success. "Notes for contractors" enable them to keep posted on the Bureau's needs.

The subscription price of the *Reclamation era* is \$1.00 a year to other than water users; foreign subscription, \$1.36 payable in advance. Subscriptions should be sent to the Commissioner, Bureau of Reclamation, Washington, D. C., accompanied by remittance in the form of postal money order or New York draft, which should be made payable to the Treasurer of the United States and forwarded to the Bureau of Reclamation.

AE 2.7: 6/149-170

NOTE.—The Federal register contains (1) all Presidential Proclamations; and all Executive orders, except such as have no general applicability or legal effect or are effective only against Federal agencies or persons in their capacity as officers, agents, or employees thereof; also contains all Executive orders establishing, amending, or revoking civil service rules, and all Executive orders containing a direction for publication thereof; (2) such documents or classes of documents as the President shall determine from time to time have general applicability and legal effect; and (3) such documents or classes of documents as may be required so to be published by act of the Congress. From Mar. 14, 1936 through Aug. 31, 1941, one hundred and thirty-three (133) agencies have submitted documents for publication in the Federal register. Suitable indexes are issued monthly, quarterly, and annually. The bound volumes of the Federal register were discontinued on June 3, 1938, and have been replaced by the annual supplements to the Code of Federal regulations.

The Federal register is sold by the Superintendent of Documents on the following terms: Single copy, 10c.; \$1.25 per month; \$12.50 per year. Subscriptions are payable in advance. Send remittances to the Superintendent of Documents, Washington, D. C.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local maps which, with a few exceptions, are drawn to the scale of 1:62,500 or 1:63,360 (1 mile to the inch). Maps of more than 1,575 counties in the United States have been prepared by the Post Office Department and blue-line prints, made from negatives on file, are sold for 50 cents per copy. Each county map shows in addition to the roads traveled by rural carriers, all post offices within the county at the time the negative was made and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local maps. Blueprint copies of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for January 1941, page 85.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are especially interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers*, arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1. Smithsonian contributions to knowledge; 2. Smithsonian miscellaneous collections; 3. Smithsonian annual reports. No sets of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents,

How to order publications—See General Information

but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad; and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' A discount of 20 percent is allowed to book dealers. The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

The only Smithsonian publications that are regularly issued as public documents are the annual report volumes. The publications in the other series have free transmission by mail, and, therefore, are included in the Monthly catalog.

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise an annual report and three scientific series, viz. Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology (except botany), geology, and anthropology. Contributions from national herbarium are wholly botanical. No sets of any of these series can now be furnished.

The Proceedings are now issued in pamphlet form only. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title page and index will be published for each volume so that the volume may be bound if desired.

STATE DEPARTMENT

NOTE.—All publications of the Department (except laws and treaties) have, since Oct. 1, 1929, been numbered consecutively in the order in which they were sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Treaties are also published in the compilation Treaties and other international acts of the United States of America, which contains literal copies of the documents, followed by notes of a textual and procedural character. The Department of State Bulletin, published weekly and indexed semiannually as of the

dates of the last issues in June and December, contains the texts of the daily mimeographed press releases, information regarding treaties and other material on the Department's work. The Bulletin contains each quarter a complete list of the Department's publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

TAX APPEALS BOARD

NOTE.—The Board of Tax Appeals reports are first promulgated in leaflet form, designated as "advance sheets." At the end of each month, these advance sheets are consolidated into pamphlet form and published as "advance parts." A list of memorandum opinions is included in each pamphlet. Later, the advance parts are consolidated and issued in bound volumes. Both the advance sheets and the advance parts are sold on subscription by the Superintendent of Documents, Government Printing Office, Washington, D. C. The subscription price of the "advance sheets" is \$2.25 per volume, foreign subscription, \$2.85; single copies usually 5c. The "advance parts," or monthly consolidations, are sold as follows: 20c. single copy, \$1.25 per volume, foreign subscription, \$1.85. The price of the bound volume will be given upon application.

MISSISSIPPI RIVER COMMISSION

NOTE.—The publications of the Mississippi River Commission consist of annual reports, annual pamphlets showing daily river stages, annual pamphlets showing daily river discharge, and annual pamphlets showing results of river discharge measurements; also publications of the Waterways Experiment Station operating under the direction of the Mississippi River Commission. The Mississippi River Commission publishes maps and charts of the Mississippi River; navigation maps of the Mississippi River from Cairo, Ill., to the Gulf of Mexico, La.; and wall maps, in colors, of the lower Mississippi River Valley from the head of the St. Francis Basin near Cape Girardeau, Mo., to the Gulf of Mexico, La., scale 1:500,000 and 1:250,000. Topographic quadrangle maps in colors, scale 1:62,500 of the alluvial valley of the lower Mississippi River are also published by the Mississippi River Commission; the topographic quadrangle maps comprise over 200 sheets and cover portions of the States of Missouri, Illinois, Kentucky, Arkansas, Tennessee, Mississippi, and Louisiana adjacent to the Mississippi River and tributaries, with an area of almost 51,000 square miles mapped. All are sale publications obtainable only from the Mississippi River Commission, except the annual reports which are issued by the Superintendent of Documents. No discount is allowed. Requests for information as to lists of publications and maps and method of making remittance should be addressed to: The Mississippi River Commission, P. O. Box 80, Vicksburg, Miss.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake of the Woods, of Rainy Lake, of Lake Champlain, and of the natural navigable waters of the New York State canals are prepared and sold by the U. S. Lake Survey Office, 605 Federal Building, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 322 Federal Building, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalog (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, may be purchased for 75 cents from the U. S. Lake Survey Office and from the Superintendent of Documents. The bulletin is revised annually and issued at the opening of navigation (in April). Supplements thereto are published monthly during the navigation season and are sent free to all who purchase the bulletin.

Complete sets of charts and publications may be seen at the U. S. Engineer offices in Duluth, Minn., Milwaukee Wis., Chicago, Ill., and Cleveland, Ohio, and at the Office, Chief of Engineers, U. S. Army, Washington, D. C., but they are obtainable only at the sales offices above mentioned.

Notes of General Interest

Bituminous Coal Consumers' Counsel

Under the provisions of Public law 34, 77th Congress, 1st session, approved April 11, 1941, there is established in the Executive branch of the Government, an office to be known as the Office of the Bituminous Coal Consumers' Counsel. The Counsel performs the functions formerly conferred and imposed upon the Consumers' Counsel of the National Bituminous Coal Commission.

Interdepartmental Committee to Study Workmen's Compensation for Seamen

The Interdepartmental Committee to Study Workmen's Compensation for Seamen was formed in Sept. 1940, pursuant to Senate resolution 299, 76th Congress. This resolution provided that the Department of Commerce, the Department of Labor, the Maritime Commission, the Employees' Compensation Commission, and the Maritime Labor Board make a thorough study of workmen's compensation with a view to determining whether the same, by act of Congress should be made applicable to seamen, and make a report to Congress of their findings and recommendations, on or before Feb. 15, 1941. However the time was extended to July 1, 1941, by Senate resolution 72, 77th Congress.

C 18.220:

NOTE.—The service is in 14 parts and provides comprehensive current data on pro-
duction, distribution, prices, standards, specifications, export and import trade, foreign
tariffs and regulations as applied to specific commodities, results of domestic market
research, foreign market surveys. Each subscriber to one or more parts of the Industrial
reference service will receive from time to time special releases titled Business series
(C18.221:) giving overall data, on a commodity or industry basis.

The annual subscription for the entire service of 14 parts is \$15.00 per year. Single
parts are available at \$1.00 per year except Machinery (pt. 6) and Foodstuffs (pt. 3)
which are \$2.00 per year, and Chemicals and allied products (pt. 1) which is \$4.00 per
year. Subscriptions may be entered for the entire service, for a single part, or for any
combination of parts; single copies of the several reports issued are available at the
uniform price of 10 cents each. Remittances for subscriptions to the service should be
made payable to the Bureau of Foreign and Domestic Commerce and mailed directly to
the Bureau in Washington, D. C. This service is not available through the Superin-
tendent of Documents.

The 14 parts comprising the Industrial reference service are as follows:

Progress maps

NOTE.—These maps show the status of improvement of the Federal-aid system in each State, regardless of whether the construction has been done with the aid of the Federal Government, by the States, by the counties, or by the townships. A system of symbols indicates the type of improvement of all the roads and whether the work was done with or without the assistance of the Federal Government. Sheets are of uniform size, some States requiring 2 or more, and are so issued that they may be punched and put in a loose leaf atlas. The maps are called progress maps, and the series will be issued periodically to show any change in improvement of the highways. As the transportation maps for each State become available, publication of progress maps for that State is discontinued.

Topographic quadrangle maps

NOTE.—The Geological Survey makes the contoured—i. e., the three-dimensional topographic maps of the country that are designed eventually to cover the whole United States, also Alaska, Hawaii, and Puerto Rico. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. The scales most commonly used are 1:31,680, 1:62,500, and 1:125,000, corresponding approximately to ½ mile, 1 mile, and 2 miles to 1 inch. The area covered varies with the latitude, but the average area of a quadrangle is 58, 230, or 920 square miles, respectively, for these three scales. Topographic maps are printed on uniform-sized paper, about 20 by 16½ inches and the maps of the quadrangle areas represented thereon are about 17½ inches long and 12 to 15 inches wide, according to latitude. For some areas of particular importance special large-scale maps are published. A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About half of the continental area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Geological Survey at 10c. each. Except as otherwise indicated, a discount of 40 percent is allowed on any order which amounts to \$5.00 at the retail price. The discount is allowed on an order for either maps or folios alone or for maps and folios together. In ordering, give the name of the map and the State in which the area lies.

NOTE.—The *Reclamation era* is a magazine for engineers, construction men, economists, and farmers on Federal reclamation projects. Its aim is to assist the settlers in the proper use of water, to help them in overcoming their agricultural difficulties, to instruct them in diversifying and marketing their crops, to inspire the employees of the Bureau and chronic engineering problems and achievements, and to promote a wholehearted spirit of cooperation, so that reclamation shall attain the greatest heights of success. "Notes for contractors" enable them to keep posted on the Bureau's needs.

The subscription price of the *Reclamation era* is \$1.00 a year to other than water users; foreign subscription, \$1.36 payable in advance. Subscriptions should be sent to the Commissioner, Bureau of Reclamation, Washington, D. C., accompanied by remittance in the form of postal money order or New York draft, which should be made payable to the Treasurer of the United States and forwarded to the Bureau of Reclamation.

NATIONAL ARCHIVES

FEDERAL REGISTER DIVISION

NOTE.—The archivist of the United States acting through this division established by him under the provisions of the Federal register act, Public no. 220, 74th Congress (49 Stat. 500-503) is charged with the custody and, together with the Public Printer, with the prompt and uniform printing and distribution of the documents required or authorized to be published under sec. 5 of this act. Such documents required or authorized to be so published are printed and distributed forthwith by the Government Printing Office in a serial publication designated the Federal register. The daily issues of the Federal register are, in effect, daily supplements to the Code of Federal regulations, and regulatory documents published therein follow the Code arrangement.

Federal register. Federal register, v. 6, no. 171-190; Sept. 3-30, 1941. [1941.] p. 4503-4960, 4° [Daily, except Sunday, Monday, and day following a legal holiday.]

AE 2.7:6/171-190

NOTE.—The Federal register contains (1) all Presidential Proclamations; and all Executive orders, except such as have no general applicability or legal effect or are effective only against Federal agencies or persons in their capacity as officers, agents, or employees thereof; also contains all Executive orders establishing, amending, or revoking civil service rules, and all Executive orders containing a direction for publication thereof; (2) such documents or classes of documents as the President shall determine from time to time have general applicability and legal effect; and (3) such documents or classes of documents as may be required so to be published by act of the Congress. From Mar. 14, 1936, through Sept. 30, 1941, one hundred and thirty-six (136) agencies have submitted documents for publication in the Federal register. Suitable indexes are issued monthly, quarterly, and annually. The bound volumes of the Federal register were discontinued on June 3, 1938, and have been replaced by the annual supplements to the Code of Federal regulations.

The Federal register is sold by the Superintendent of Documents on the following terms: Single copy, 10c.; \$1.25 per month; \$12.50 per year. Subscriptions are payable in advance. Send remittances to the Superintendent of Documents, Washington, D. C.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local maps which, with a few exceptions, are drawn to the scale of 1:62,500 or 1:63,360 (1 mile to the inch). Maps of more than 1,575 counties in the United States have been prepared by the Post Office Department and blue-line prints, made from negatives on file, are sold for 50 cents per copy. Each county map shows in addition to the roads traveled by rural carriers, all post offices within the county at the time the negative was made and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local maps. Blueprint copies of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for January 1941, page 85.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are *especially* interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers*, arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1. Smithsonian contributions to knowledge; 2. Smithsonian miscellaneous collections; 3. Smithsonian annual reports. No *sets* of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad; and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' A discount of 20 percent is allowed to bookdealers. The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

The only Smithsonian publications that are regularly issued as public documents are the annual report volumes. The publications in the other series have free transmission by mail, and, therefore, are included in the Monthly catalog.

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise an annual report and three scientific series, viz. Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology (except botany), geology, and anthropology. Contributions from national herbarium are wholly botanical. No sets of any of these series can now be furnished.

The Proceedings are now issued in pamphlet form only. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title page and index will be published for each volume so that the volume may be bound if desired.

STATE DEPARTMENT

NOTE.—All publications of the Department (except laws and treaties) have, since Oct. 1, 1929, been numbered consecutively in the order in which they were sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Treaties are also published in the compilation Treaties and other international acts of the United States of America, which contains literal copies of the documents, followed by notes of a textual and procedural character. The Department of State Bulletin, published weekly and indexed semiannually as of the dates of the last issues in June and December, contains the texts of the daily mimeographed press releases, information regarding treaties and other material on the Department's

MISSISSIPPI RIVER COMMISSION

NOTE.—The publications of the Mississippi River Commission consist of annual reports, annual pamphlets showing daily river stages, annual pamphlets showing daily river discharge, and annual pamphlets showing results of river discharge measurements; also publications of the Waterways Experiment Station operating under the direction of the Mississippi River Commission. The Mississippi River Commission publishes maps and charts of the Mississippi River; navigation maps of the Mississippi River from Cairo, Ill., to the Gulf of Mexico, La.; and wall maps, in colors, of the lower Mississippi River Valley from the head of the St. Francis Basin near Cape Girardeau, Mo., to the Gulf of Mexico, La., scale 1:500,000 and 1:250,000. Topographic quadrangle maps in colors, scale 1:62,500 of the alluvial valley of the lower Mississippi River are also published by the Mississippi River Commission; the topographic quadrangle maps comprise over 200 sheets and cover portions of the States of Missouri, Illinois, Kentucky, Arkansas, Tennessee, Mississippi, and Louisiana adjacent to the Mississippi River and tributaries, with an area of almost 51,000 square miles mapped. All are sale publications obtainable only from the Mississippi River Commission, except the annual reports which are issued by the Superintendent of Documents. No discount is allowed. Requests for information as to lists of publications and maps and method of making remittance should be addressed to: The Mississippi River Commission, P. O. Box 80, Vicksburg, Miss.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake of the Woods, of Rainy Lake, of Lake Champlain, and of the natural navigable waters of the New York State canals are prepared and sold by the U. S. Lake Survey Office, 605 Federal Building, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 322 Federal Building, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalog (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines, and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, may be purchased for 75 cents from the U. S. Lake Survey Office and from the Superintendent of Documents. The bulletin is revised annually and issued at the opening of navigation (in April). Supplements thereto are published monthly during the navigation season and are sent free to all who purchase the bulletin.

Complete sets of charts and publications may be seen at the U. S. Engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., and Cleveland, Ohio, and at the Office, Chief of Engineers, U. S. Army, Washington, D. C., but they are obtainable only at the sales offices above mentioned.

FINANCE DEPARTMENT

Finance circulars. †

NOTE.—Finance circulars contain instructions and information of a relatively permanent character pertaining to the performance of the technical duties of finance and disbursing officers and of property auditors. Though bearing dates they are grouped according to subject matter. Each group of circulars is designated by a letter, and the circulars in each group are numbered consecutively. Numbered changes are issued separately for each circular as required. Issued with a T-hole punch for binding.

COMMERCE DEPARTMENT

NOTE.—In its efforts to foster, promote, and develop the foreign and domestic commerce, the manufacturing, shipping, and the transportation facilities of the United States, the Department of Commerce issues many regular and special publications. The free distribution of publications of the Department is confined almost entirely to libraries, educational institutions, the press, and commercial organizations. Others may procure them, at prices stated below, from the Superintendent of Documents, Government Printing Office, Washington, D. C., to whom remittances should be sent direct, as his office is not a part of the Department of Commerce.

LAWS

NOTE.—The Federal laws are first published separately and in this form are known as "slip laws." Later, these laws are compiled, edited, indexed, and published in the volumes of the Statutes at large.

Beginning with the 77th Congress, the laws no longer are numbered in four series, public acts, private acts, public joint resolutions, and private joint resolutions, but are numbered in two series, namely, public laws and private laws.

The "slip law" continues to bear the chapter number and the session of Congress during which the law was enacted, but this information does not appear in the entries listed below.

Private [joint] resolutions. See above note under center head Laws.

NOTE.—This publication is discontinued with the May and June 1941 issue, and the material is now contained in Consumption of fuel for production of electric energy and Production and utilization of electric energy in United States, for which see above.

National electric rate book.

NOTE.—The National electric rate book and individual rate books for the 48 States, covering the rates charged by publicly and privately owned utilities in communities of 1,000 or more population for residential, commercial, and industrial service, are issued in loose-leaf form in binders. Supplements showing rate changes and new rate schedules are issued in processed form to replace superseded data. A monthly Bulletin service shows important rate changes prior to their incorporation in the supplements.

Subscriptions for the National electric rate book, individual State rate books and Bulletin service should be sent to the Federal Power Commission, Washington, D. C. Prices are as follows: National electric rate book, \$10.00, including binders, Supplement service and monthly Bulletin service for 12 months from date of order; Supplement and Bulletin services thereafter, \$7.50 per year. State rate books, \$1.00 each, including binder and Supplement service for 12 months from date of order; Supplement service thereafter, \$1.00 per year. Monthly Bulletin service for individual State rate books is available at \$1.00 additional per year, payment to be made with initial subscription.

Topographic quadrangle maps

NOTE.—The Geological Survey makes the contoured—i. e., the three-dimensional topographic maps of the country that are designed eventually to cover the whole United States, also Alaska, Hawaii, and Puerto Rico. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. The scales most commonly used are 1:31,680, 1:62,500, and 1:125,000, corresponding approximately to ½ mile, 1 mile, and 2 miles to 1 inch. The area covered varies with the latitude, but the average area of a quadrangle is 58, 230, or 920 square miles, respectively, for these three scales. Topographic maps are printed on uniform-sized paper, about 20 by 16½ inches

How to order publications—See General Information

and the maps of the quadrangle areas represented thereon are about 17½ inches long and 12 to 15 inches wide, according to latitude. For some areas of particular importance special large-scale maps are published. A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About half of the continental area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Geological Survey at 10c. each. Except as otherwise indicated, a discount of 40 percent is allowed on any order which amounts to \$5.00 at the retail price. The discount is allowed on an order for either maps of folios alone or for maps and folios together. In ordering, give the name of the map and the State in which the area lies.

NOTE.—The *Reclamation era* is a magazine for engineers, construction men, economists, and farmers on Federal reclamation projects. Its aim is to assist the settlers in the proper use of water, to help them in overcoming their agricultural difficulties, to instruct them in diversifying and marketing their crops, to inspire the employees of the Bureau and chronicle engineering problems and achievements, and to promote a wholehearted spirit of cooperation, so that reclamation shall attain the greatest heights of success. "Notes for contractors" enable them to keep posted on the Bureau's needs.

The subscription price of the *Reclamation era* is \$1.00 a year to other than water users; foreign subscription, \$1.36 payable in advance. Subscriptions should be sent to the Commissioner, Bureau of Reclamation, Washington, D. C., accompanied by remittance in the form of postal money order or New York draft, which should be made payable to the Treasurer of the United States and forwarded to the Bureau of Reclamation.
